

# Dynalite Switch

Mobile App

## Intuitive mobile interface

The Dynalite Switch app (the "Software Services") provides both Apple and Android devices with intelligent control of the Philips Dynalite system in both residential and commercial applications.

Wrapped in a modern and intuitive user interface, this app enables you to manage scenes, apply schedules, and control individual channels as well as fans, climate functions, and motorised window coverings.

---

## Features

- **Plug-and-play** – Connect the mobile app to the Philips Dynalite system and it's ready to use.
- **Scene management** – Recall and edit predefined lighting scenes.
- **Climate controls** – View current temperature and relative humidity, control fan speeds, and adjust the HVAC temperature setpoint.
- **Lighting control** – Easily adjust individual lighting channels.
- **Scene scheduling** – Trigger lighting scenes based on a schedule.
- **Simple connection** – Connect to a Philips Dynalite Ethernet gateway via your local Wi-Fi network.

## Compatibility

The Dynalite Switch app is designed to work exclusively with Philips Dynalite systems and devices.

## Operating Environment

The Philips Dynalite Switch app is installed locally on your iOS or Android device.

The following requirements are needed on your device to support the Software Services:

### iOS

Compatible Devices	iPhone
Operating System	iOS 16.0 or later

### Android

Compatible Devices	Android phone or tablet
Operating System	Android 13.0 or later

Due to continuous improvements and innovations, requirements may change without notice.

## Interface

## Ordering

Available free of charge from the Apple or Google Play app store.

# Policies and Notices

## Security

The Software Services are covered by the Signify Security Statement, which is available at [signify.com/global/product-security/professional-systems-and-services](https://signify.com/global/product-security/professional-systems-and-services)

A product specific security statement may be available on request at Signify's discretion and subject to confidentiality conditions.

## Usage Restrictions

The Software Services should not be used for any purpose other than stated in this specification sheet.

The Software Services and any data generated or processed thereby must not be used or relied upon for applications or activities where the use or failure of the Software Services could lead to death, personal injury, or environmental damage.

## Applicable Terms and Conditions

The access and use of these Software Services are subject to our most recent Terms of Software Services as published at: [Terms of Software Services](#)

## Data

If we process personal data, we will do so in accordance with our [Data Processing Agreement and applicable data processing schedule\(s\)](#) or [Privacy Notice](#), as applicable to our role in that processing.

## Software End of Life Policy

The Software Services are subject to Signify's End of Life policy that can be found here: [Policies & Announcements](#)

## Open Source Software

An overview of included open source software is available in the Software Services menu under **About > Open source licenses and third-party elements**.

## Update / Upgrade

Philips Dynalite may release updated and/or upgraded versions of the Software Services from time to time, at its discretion. For any such update or upgrade, the main changes are indicated in the release notes. Changes may not be reflected in an update of this document.

---

# Disclaimer

This Software Specification represents the current specification of the Software Services as of the date of publication of this document but is provided 'as is' without warranty of any kind, whether express or implied. This information is subject to change without notice. Customers are responsible for making their own independent assessment of the Software Services and the use thereof. Any commitments or liabilities in respect hereof are exclusively defined in the agreements between Philips Dynalite and its customers.

More detailed information about the Software may be available at request but at Signify's discretion.
